

S. Bijani, L. Martínez, M. Gabás, E. A. Dalchiele, J.R. Ramos-Barrado.
Low-temperature electrodeposition of Cu₂O thin films: modulation of micro-
nanostructure by modifying the applied potential and electrolytic bath pH.
Journal of Physical Chemistry C 2009, **113**, 19482 -19487

S. Bijani, M. Gabás, G. Subías, J. García, L. Sánchez, J. Morales, L. Martínez and J. R.
Ramos- Barrado
XAS study of the reversible reactivity mechanism of micro- and nanostructured
electrodeposited Cu₂O thin films towards lithium
J. Mater. Chem. 2011, **21**, 5368-5377

S. Bijani, R. Schrebler, E. A. Dalchiele, M. Gabás, L. Martínez and J. R. Ramos-Barrado
Study of the Nucleation and Growth Mechanisms in the Electrodeposition of Micro- and
Nanostructured Cu₂O Thin Films
Journal of Physical Chemistry C 2011, **115**, 21373–21382
